

Federal Government Partial Shutdown

On December 21, 2018 at midnight, the Federal Government entered a partial shutdown, which includes HUD. The government shutdown currently has not affected the Detroit Housing Commission's operations. The federal funding supporting DHC's programs is expected to be secure through February 2019. We are not in a position to speculate beyond February.

Please be assured that DHC is continuing to follow this situation closely, and we will send out information as it becomes available.

DHC is not able to respond to many of your questions. We encourage you to contact your federal legislators. The following website provides contact information: www.congress.gov
